---

### **Checklist Use**

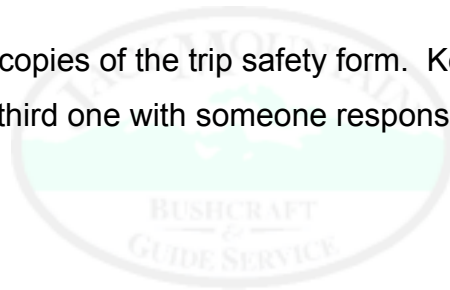

Our checklist system consists of two check boxes for each item. The first box is checked when the item is ready to go. The second box is checked when the item is loaded. The system is designed so that the Master Checklist is completed last, when all the other items have been loaded.

Not every piece of gear listed is necessary or wanted on each trip. However, it is better to list them and leave them at home than to not list them and not have them when they're needed.

Prior to every trip print out the checklists and work through them methodically.

### **Trip Safety Form**

Print and fill out three copies of the trip safety form. Keep one with you, leave one in the vehicle, and leave the third one with someone responsible.

### **Canoe Trip Suggested Gear List**

Below is a suggested gear list for warm weather canoe trips. We provide canoes, paddles, pfd's and all group gear. We also provide all food and eating utensils, although participants need to bring their own unbreakable cup or mug. We plan on providing the optional gear items, however if you have your own and want to bring it please let us know. Most people bring more gear than needed, so please be aware of this when packing. If you have any questions don't hesitate to call, email, or write with them
